

New PCIe SATA RAID Cards from Adaptec

Advanced PCIe connectivity, with higher performance than PCI-X, full 3Gb/s throughput, and industry-leading RAID data protection come together in the new low-profile Adaptec RAID 1220SA and 1430SA cards for SATA drives.

The 2-port Adaptec RAID 1220SA and the 4-port Adaptec RAID 1430SA can be used in the home office and small office to protect business-critical data that is stored on desktops such as personal finance information or sales records - at an affordable cost.

Adaptec 1220SA & 1430SA benefits:

- » boost audio/video streaming and gaming performance
- » protect data on personal computers
- » serve as a boot device for small and home office

	2-port Adaptec 1220SA	4-port Adaptec 1430SA
RAID 0, 1, JBOD	✓	
RAID 0, 1, 10, JBOD		✓
